SMOKY ROW ELEMENTARY

Giving Holiday Cheer

Felicia Diaz, Assistant Supervisor

Every school year, the ESE program does two service projects with the students. This month at ESE, students tapped into their holiday cheer and created cards for children that will be in the hospital this holiday season. They had a basic template as an example, but most of the students preferred to get super creative and make their own uniquely designed cards.

It was inspiring and heartwarming to see how serious the Smoky Row students took this good deed. They displayed a truly genuine sense of wanting to spread love and support to other kids out there that are going through tough times. I could not have asked for a better result for our first service project of the school year!

Birthday Celebrations!

Felicia Diaz, Assistant Supervisor

Happy Birthday to everyone with birthdays in November! We hope all our students with November birthdays enjoyed their special time. We were happy to acknowledge each and every student with a November birthday on our special Birthday Bulletin Board. Students also seemed very happy to sport their stretchy birthday bracelets. Pictured are a few of our students who celebrated a birthday in November on stage celebrating! All of our students celebrating their special day in November were: Emma M., Abhinav U., Tommy C., Varnika G., Amara W., Eleanor R., Thanay A., Annie J., Ashwin K., and Sam H.
