WOODBROOK ELEMENTARY

Kinetic Sand

Christian Amaro, Assistant Site Supervisor

At Woodbrook we are all about trying fun, new activities! One of the newest and most popular club according to students. At first this activity sounds like it will be extremely messy and cause some headaches during clean up time. However, this sand sticks together and each student gets their own tray for creating, which definitely cuts down on the mess factor. Students have created variety of things which have ranged from a piece of pizza to a snowman.

Miss Quarles is extremely creative and thoughtful when coming up with a variety of ideas for the children to create and our children have large imaginations that allow them to create! Usually this club draws anywhere from 15 to close to 30 students! It has been awesome to see your students welcome a new activity and really enjoy it!

December Birthdays!

Christian Amaro, Assistant Site Supervisor

It is crazy to believe that December is already here! Where has the year gone?! We will continue to celebrate birthdays on Friday's and will do so earlier as many students will begin going home other ways. Each month we recognize our students' birthdays, this occurs on Fridays during our RICHER Right Up moment. Each student receives a WB ESE pencil of their choice and gets to stand on the stairs in front of their peers!

December birthdays include Ruth H., Nate A., Gabe K., Abigail M., and Kinley M.
