## Lights, Camera, Action!

*Amanda Gillim, Site Supervisor*

We have started a movie club, Lights, Camera, Action! Students will have the opportunity to be a part of making a movie from script writing, casting, acting, filming, producing, editing, and screening here at ESE!

Every Thursday from 4:30-5:30pm we will have this club. Your children are welcome whether they have already been attending this club or they would like to become a part of this process! We do ask to please allow them to stay for the entire club so they won't miss out on any parts of the film making process!

So far, they have been turning ideas into stories that will make scenes and scripts for their movie. They are choosing roles and beginning to layout their movie.
