## Indy Humane service project

*Jessica Ballinger, Assistant Site Supervisor*

Every semester we try to do a service project that gives back to the community. This semester we are donating items to help Indy Humane.

We turned the donation drive into a competition to see what grade could donate the most items. We had lots of items donated but the most popular items were hand soap and puppy food. When everything was said and done 1st grade donated the most items with 28 and will receive a movie party as their reward. Thank you for everyone that donated to help this wonderful organization.
