Welcome back to College Wood ESE

I am so very excited to be back for the 2019-2020 school year. We have a lot of great things in store for your kids this school year. We have also made some changes that I would like you to be aware of. Our student check out location is now in the school lobby, on the right hand side. Please use door #1 to enter the building and then use the lobby doors to enter, we'll open them up for you! All check-out procedures are the same, requiring a pin number to sign up and a photo ID check. Thank you for your patience as we get used to the new location.

We have also made some adjustments to our Academic Assistance portion of the day. 1st-6th grade student will have the option to participate in Homework Stations for a portion of their homework time. These stations include a variety of academic, semi-active, and educational activities. We are also increasing our use of technology during the homework stations by including online trivia games and educational videos. For students who want to work on homework and be in a quiet environment for all 45 minutes of homework time, we have a designated quiet study place. Our kindergarten students have their own special plan for Academic Assistance since they do not have homework. This includes group reading, games, and activities led by older students.

NEWS & VIEWS

Fall Field Trip to West Park

Fall is just around the corner. We are celebrating by taking a field trip to West Park on September 19th. ESE is partnering with the Parks & Natural Resources department to plan a Monarch Tagging lesson and activity. Any College Wood ESE student can sign up for this field trip. A few important things about the field trip. We will be walking to West Park! There is a paved and gravel trail that leads from College Wood to West Park that is a less than 30 minute walk. All parent pick up for field trip attendees will take place at West Park so we can maximize our time on the field trip. The field trip is weather pending. If we have inclement weather the day of the field trip, we will have to cancel and rescheduling might not be possible.

If your child/children are interested in learning about Monarch butterflies, Monarch migrations and their life cycle – then this is the field trip for you. We will learn from Brittany McAdams and Joanna Woodruff about Monarch tagging and then have some time to catch and tag some butterflies ourselves. We'll conclude our field trip with some time on the playground and exploring the park. This is a wonderful opportunity to learn something and experience one of our amazing parks!
