## ADDING TECHNOLOGY TO ESE!

The Orchard Park ESE program is very excited to be adding more technology into our afternoon program. The students have been enjoying watching educational shows such as The Magic School Bus, virtual field trips, and having time in the computer lab. The addition of technology will provide different opportunities to make learning more fun and enjoyable for our students. We believe that this will also provide great opportunities for making learning more effective for everyone with different needs.

## Wreck It Ralph Site Celebration!

On August 30<sup>th</sup>, the Orchard Park ESE program celebrated their first site celebration of the year! The students enjoyed watching Wreck It Ralph. During the movie, students were able to participate in making their own hero medals. We also had a station set up where students could make a sugar rush racer. We offered a variety of candies and cookies for our students to build their own version of this racer! They had such a fun-filled afternoon and enjoyed every minute of it! Some of the students even chose to take their photo by a giant cardboard stand-up of Wreck It Ralph! We want to thank you for letting your kids join in on all the fun that afternoon brought us!
