Creative Kiddos

Towne Meadow students are very creative! We have been making some pretty awesome projects at ESE so far. Pipe cleaner dragons, craft stick skyscrapers, pin wheel tree houses, and Picasso-like portraits are just a few projects we have done since the school year began. We want to guide our kids to learn new things and try new activities that spark interest and allow them to find talents, but we also want them to explore their own creativity. We do this at Towne Meadow by having club choices that foster that exploration with different materials to choose from and flexibility in any given project. If one of our students wants to add their own flair to a project we are doing as a group, we encourage them to add it. If they have a different idea that goes with the theme of what we are working on, we help them make their vision come to life! The majority of our students chooses to go to our creative clubs and love to build, craft, and engineer their own masterpieces!

NEWS & VIEWS

ESE Showcase-September 27th

Our first Site Celebration at Towne Meadow will be a Showcase showing some of our favorite parts of ESE to parents and teachers! We want to show how much fun and exploration we get at ESE! Our Jr. Counselors will help make snacks for everyone to enjoy, help other students set-up their favorite clubs, and show off what makes ESE fun for them. Some clubs include ESE Escape Room, Science Rules, Dodgeball Games, and of course SnackArt!

We will also showcase our students' projects, art, and some of our favorite activities. Please stop by Friday, September 27th from 3:00-6:30pm to see what wonderful things are happening at ESE!!
