Welcome Back To Woodbrook!

Christian Amaro, Assistant Site Supervisor

Each school year we are always excited to meet new students and welcome back returning students! One of the focal points when entering Woodbrook's main doors is our front board. The front board is full of a variety of pertinent information that is important to students, parents, and staff members. This year our theme to begin our school year is ice cream! The board typically has a club calendar, which has the club breakdown day by day. This is to help the kids see what is happening on daily basis, and to also help with parents (so they might not pick up early on specific days). Typically School's Out information is also on the board, for another option for Extended School Enrichment options when school is not in session. There is a movie list, so students can see what we will be showing in advance. We are always sure to remind our parents and student to check the board for upcoming events and important information. Our staff members love being creative and designing the board as the year progress!

Club Time!

Christian Amaro, Assistant Site Supervisor

With a new school year, comes new clubs! Club time is a designated time after school from roughly 4:30 pm until around 5:30 pm. During this time students have the opportunity to choose from four different activities. These activities typically include an active option, which is most commonly a various sport, a craft option, and a hobby option. Each day there is a different set of clubs that occur so students are always able to try something new each day. There is always a bonus option that encourages free play and has minimal structure. Our students have the freedom to choose based on interest and get a chance to be alongside friends.

NEWS & VIEWS

One club that students have enjoyed so far this year is lawn games. Our staff noticed that last year during our tailgate site celebration that there was interest in playing a variety of outdoor based recreation games. So far this year our students have had the opportunity to learn and play cornhole, ladder ball, bocce ball, and Spikeball! The weather has not always cooperated so sometimes the activities had to be moved inside. Our students are looking forward to playing croquet, Kan Jam and lawn bowling! We are planning on enjoying the last of this summer weather while we can!
