Field Trip Adventures

The Carmel Elementary ESE program has made it a priority to introduce the kiddos to new technology opportunities during program this year. We have implemented a technology station during homework time, titled Virtual Field Trip. This activity is hosted in the music room, where kids sit back and watch a documentary. They learn about a variety of topics such as: animals, weather patterns, ocean life, national parks, etc. We have even watched a staff childhood favorite, The Magic School Bus.

Carmel has introduced a brand new club this quarter, as well, News and Views. This club runs every Monday from 4:45Pm – 5:30PM. During this time, kids will use the Adobe Spark video app on the iPads. This app is designed to help create an exciting movie from photos or videos. Kids take time out of their day to record exciting activities and events happening around the school. They will put together all the footage that they have recorded, create a theme and attach music to the video. The topics for the videos range anywhere from current events at Carmel Elementary to an ESE talent show. These videos will be sent out to parents during the week. Please keep your eyes peeled for the emails.
