Celebrating Lights On Afterschool

Thursday, October 24th we celebrated the importance of afterschool programs for families and communities for Lights On Afterschool. This annual event is our excuse to throw a party and have some fun. We took the celebration outdoors to stay fit and healthy. The weather was so nice, we moved the entire program outside to the playground and track! Even parents had to come out to the playground to pick up their kids! Students had multiple games they could pick from and could switch from game to game

as they wanted. Ms. McConkey and Ms.

Lacy taught a new field game called “The Canada Game” that tested your dodgeball throwing skills as well as your speed and agility. Mr. Breland challenged students to high speed track races. Mrs. Heckaman set up an obstacle course for students to race through. We had a few different basketball games going with Mrs. Ferri. The GaGa ball pit was open for games with Ms. Pedrick. And Ms. Chandrakumar (Ms. C) helped students make sidewalk chalk drawings and hopscotch courses. It was a beautiful day and we had plenty of fun activities all afternoon!

Please welcome our new Head Counselor, Mr. Crossley

As many parents may know, Mr. Monson got a promotion to Assistant Site Supervisor over at Orchard Park ESE. We are so excited for him! That left a vacancy in our Head Counselor position here at College Wood. I am excited to introduce Mr. Crossley as our new Head Counselor! He joined the ESE team in August after recently moving here from California. You’ll see Mr. Crossley at the parent table throughout the week and running fun games and activities with the kids.
